

# XL-tablet

## Tablet & POS

XL-tablet is more than a POS device it's a premium business solution designed for performance and flexibility.

With its magnetic dock, integrated Seiko 80mm printer, and smart connectivity options, XL-tablet delivers a seamless experience for retail and hospitality environments.

Built for demanding operations and powered by CashMag Premium software, it combines speed, reliability, and a sleek design to elevate your point-of-sale experience.

## Protective Case

Included in our Combo offer, the XL-tablet Protective Case enhances durability and comfort without adding bulk.

Combined with the tablet's lightweight design (under 600g) and secure hand straps, it ensures effortless handling and maximum protection perfect for fast-paced retail and hospitality environments

## Magnetic dock design

XL-tablet is integrated with a magnetic dock design so that it can easily attach onto different docks to give a completely different experience.

### Basic Dock

- A basic dock for reliable docking

### HighSpeed Thermal Printer Dock

- Equipped with 80mm, thermal printer.

# XL-tablet
